Scribendi Music also provides an ability to bookmark any website to have all the available tracks at your fingertips.Q: Clojure lazy-seq and io-stream, as the following (example) does not work: (def lazy (lazy-seq (cons 1 2))) (def io-stream (io/output-stream)) (io/writer io-stream (lazy)) Running this returns ClassCastException java.lang.Boolean cannot be cast to clojure.lang.IPersistentCollection\$Seq I guess there's no way to write a lazy-seq and write the result to a file/networkstream, but I'm asking whether there's some nice trick to achieve this. Thanks A:

Lazy sequences can be streamed lazily: (def io- 82157476af
